

Title: Information Security Policy
Owner: Information Security Team
Version: 4.1

1 Password Requirements

All employees must:

- **Use passwords of at least 14 characters**
- **Enable multi-factor authentication**
- **Avoid password reuse across company systems**

2 Data Classification

Classification Examples		Access
Public	Marketing materials	Everyone
Internal	Team documents	Employees
Confidential	Contracts, customer data	Authorized personnel
Restricted	Encryption keys, credentials	Security team only

3 Security Incidents

Employees must report suspected security incidents within 30 minutes through the Security Incident Portal.

Examples:

- **Lost company laptop**
- **Phishing emails**
- **Unauthorized access attempts**
- **Accidental data exposure**
